

GUIDELINES FOR EOI

Guidelines for EOI

- EOI should include the following: Preferred timeframe, main highlighted themes/narrative and how it relates to the Government of Canada's priorities, artist(s) profile(s), examples from artist portfolio(s) and images of the work to be considered where possible.
- Due consideration must be given to the modest size of the gallery and how proposed exhibitions are able to best use the space. The gallery is 822 ft² (or 250 m²) with approximately 80 linear feet (24.4m) of wall space. The ceiling is 22ft (6.7m) high.
- As part of the Embassy of Canada, all projects proposed for the art gallery should be mindful that the space is an extension of the diplomatic mission's work in the United States.
- Only proposals from institutional partners in Canada or the United States will be considered. Artists must be Canadians.

Only those projects that meet the established criteria (as defined on the application form below) will be contacted for a more detailed discussion.

We encourage you to share this message with other organisations that may be interested in putting forward a proposal for consideration.

The deadline for receiving expressions of interest is **July 21st, 2024**. Proposals submitted after this deadline may still be considered should there be a new opening in our programming.

We look forward to receiving your expressions of interest.
